

Evolve Door Hinge Adjustment

Follow these instructions to horizontally or vertically adjust the door on your Evolve cabinet.

Tools needed:

- Phillips screwdriver

To adjust horizontally

Step 1

- Open the door to access the hinge screw on the front of the hinge.

Step 2

- Loosen or tighten with screwdriver to adjust the door to the correct location.

To adjust vertically

Step 1

- Loosen the 2 screws on the cabinet mounting plate.

Step 2

- Adjust the door up or down to the correct location and tighten the screws.
