

ECP Cart with Single Shelf (SRSOECP)

Roam carts are lightweight and easy to maneuver. The FlexCell design and system of interior components adapt to the specific supply and procedure storage needs of departments throughout a healthcare facility. The Roam 3 ECP (extending cardiovascular

procedure) Cart with Single Shelf has a stainless steel top that extends both left and right to increase surface space and 1 full-width shelf. The cart comes in a Soft White finish.

ECP Cart with Single Shelf (SRSOECP)
