

ECP Cart with Drawers and Dividers (SRSDECP)

Roam carts are lightweight and easy to maneuver. The FlexCell design and system of interior components adapt to the specific supply and procedure storage needs of departments throughout a healthcare facility.

The Roam 3 ECP (extending cardiovascular procedure) Cart with Drawers and Dividers has a stainless steel top that extends both left and right to increase surface space, 2 full-width drawers, and 1 shelf with 5 adjustable dividers. The drawers have full-length extension glides and integral pulls. The cart comes in a Soft White powder-coated paint finish.
