

ECP Cart with Single Shelf (SRSO ECP)

Roam carts are lightweight and easy to maneuver. The FlexCell design and system of interior components adapt to the specific supply and procedure storage needs of departments throughout a healthcare facility.

The Roam 3 ECP (extending cardiovascular procedure) Cart with Single Shelf has a stainless steel top that extends both left and right to increase surface space and 1 full-width shelf. The cart comes in a Soft White powder-coated paint finish.

ECP Cart with Single Shelf (SRSOECP)
