

The Smart Solutions platform lets you monitor scope drying and track scope storage from your computer.

Be more efficient tracking your endoscope inventory, whether for one department or endoscopes across your healthcare campus and satellite locations. While the Ventaire scope drying and tracking system is operated via touchscreen on the scope cabinet's exterior, drying and tracking can be monitored remotely with the InnerSpace Smart Solutions website. The cloud-based website offers a flexible and secure way to view your department's valuable scope inventory. And because its cloud-based, you can be mobile and stay connected.

Smart Solution's easy-to-read dashboard displays scope status, countdown to scope expiration, and alerts you both on the dashboard and by email when scopes have expired and disposable tubes and filters need to be replaced. Through the platform, you can manage users; generate reports; and order disposable products anytime or through a recurring schedule. You can also monitor scopes by department or cabinet, identify endoscopy staff, date and time, and track scope activity.

Generate a report that provides you with exactly the information you need. Filter your report by scope or cabinet activity; scope brand, model number, or serial number; case number; or endoscopist's name.

Another option for remote monitoring is via a Ventaire network connector device located in the cabinet. One device will provide access to all Ventaire cabinets in a single room.

A Smart Solutions subscription is available to customers who purchase a Ventaire scope drying and tracking cabinet or scope tracking cabinet. Subscriptions also apply to customers purchasing drying or tracking retrofit units. The first three months of the annual subscription is free. Subscriptions can also be purchased for a minimum of 1 year and up to five years.

The Smart Solutions dashboard clearly displays the drying and venting process, scope expiration countdown, and tracks scope locations.

Smart Solutions website subscription (innerspacesmartsolutions.com)

	12 months	24 months	36 months	48 months	60 months
1 Ventaire Unit	SSV1.12	SSV1.24	SSV1.36	SSV1.48	SSV1.60
2 Ventaire Units	SSV2.12	SSV2.24	SSV2.36	SSV2.48	SSV2.60
3 Ventaire Units	SSV3.12	SSV3.24	SSV3.36	SSV3.48	SSV3.60
4 Ventaire Units	SSV4.12	SSV4.24	SSV4.36	SSV4.48	SSV4.60
5+ Ventaire Units	SSV5.12	SSV5.24	SSV5.36	SSV5.48	SSV5.60

Pay annually for your subscription and earn a 10-percent discount. You can also pay on a monthly basis. For a monthly subscription, InnerSpace sets up a recurring payment schedule through PayPal. Subscription renewals are due on December 31. Contract terms are prorated.

If you plan to use a Ventaire network connector device to connect your Ventaire cabinet to the Smart Solutions platform, specify SVNCD with your subscription. A monthly service fee will be charged per device.
